CEO @NVEIL | AI & Deeptech Advocate | Hiring & Scaling | Active in
EMEA Startup Ecosystem | Fundraising Leader
Grenoble, Auvergne-Rhône-Alpes, France

Résumé

What I Do Fundraise and scale high-impact deeptech ventures (non-dilutive, VC, and public funds) Recruit and lead cross-functional sales and technical teams Build from 0 to 1: GTM strategy, partner channels, product-market fit Secure strategic accounts. Pitch to investors, engage C-level stakeholders, and represent Nveil in global forums Active Ecosystem Contributor Member of NVIDIA Inception, Google for startups, Minalogic & Medicalps Speaker at events like VivaTech, WAICF. Passionate about helping early-stage founders and regularly mentor. Let's Connect If: You're a startup or corporate innovator exploring how to unlock value from complex visual data You're a VC or investor seeking to partner with an ambitious AI startup You're hiring or building your board and need deeptech / GTM expertise You're organizing tech or innovation events and looking for speakers on AI, fundraising, or scaling

Expérience

NVEIL

Chief Executive Officer

décembre 2023 - Present (2 ans 5 mois)

Grenoble, Auvergne-Rhône-Alpes, France

Founded Nveil to solve a problem I saw across every enterprise data team: the gap between raw data and real understanding.

Nveil is an AI-powered platform that generates interactive 3D data visualizations from any dataset — no code, no configuration, no training required. We serve data leaders, scientists, and engineers in life sciences, pharma, and regulated industries where auditability and precision are non-negotiable.

Key milestones:

Raised pre-seed funding and built the founding team in Grenoble

Launched the Nveil platform — from concept to live product

Presented at Go Entrepreneurs Lyon 2025, SIDO 2024, and Institut Carnot LSI

Building enterprise pipeline across EMEA and the US with early traction in pharma and life sciences

Accepted into French deep-tech innovation programs and secured institutional partnerships

Leading product, go-to-market, fundraising, and hiring. Previously spent 10+ years in enterprise SaaS sales (IBM, BigID, Pluralsight) before going all-in on building the future of data visualization.

BigID
